PUMPS
The Pump People

Gorman-Rupp's unique, J Series® Packaged Submersible Pumping System places controls and valves above ground in an attractive, vandal-resistant fiberglass enclosure.

This design permits safe and easy access to controls or valves for maintenance or service. No need for service personnel to enter a hazardous valve pit.

Compact, economical design reduces site space requirements by eliminating the need for a separate valve pit.

Below the enclosure are Gorman-Rupp J Series®, slide rail-mounted submersible pumps. These dependable pumps are available in 3" to 6" sizes, capacities to 2300 GPM, heads to 205 feet.

5-year station warranty on packaged pumping system, including controls, piping, and valves, totally pre-engineered and ready

for immediate installation. And, the pump has a prorated 5-year warranty.

UL listing available on complete station (excluding enclosure).
